

Dam spillway improvements under construction

Lenard Engineering, Inc. is a small, private, employee-owned Engineering Consulting company. We are licensed professional engineers in Connecticut and corporate members of the Association of State Dam Safety Officials (ASDSO). Since 1971, our firm has been responsive to our clients' needs and cost-effective with their budgets. We have performed engineering services at hundreds of dams across Connecticut and Massachusetts. With offices conveniently located in Winsted, Glastonbury, and Storrs we can quickly access all areas of the state.

Dam Engineering Services:

- **Dam Inspections**
- **Emergency Action Plans**
- **Operation & Maintenance Plans**
- **Design of Repairs or Improvements**
- **Permitting**
- **Construction Engineering**

and Recreation — inspection of 22 dams
across the state
Hubbard Reservoir, Manchester, CT

Are you required by the Department of Energy and Environmental Protection to have your dam inspected?

Do you need to **take action** to meet the new requirements of Public Act 13-197?

Public safety is the guiding principle behind
the regulations issued by the Connecticut
Department of Energy and Environmental
Protection (DEEP).

Lenard Engineering, Inc. (LEI) can assist you,
the dam owner, in making sure that your dam
is safe and complies with all Connecticut Dam
Safety regulations.

As registered professional civil engineers,
with many years of dam engineering
experience, we offer:

- ▶ Experience and knowledge of dam design
and safety
- ▶ Extensive dam inspection experience
- ▶ Extensive experience designing repairs
and improvements
- ▶ Knowledge of Connecticut statutes and
regulations governing dams
- ▶ LEI is a corporate member of the
Association of State Dam Safety Officials

Please contact us for more information or a
proposal for services.
